

2. Occupational safety, Security First-aid/Eye wash bottles

Eye-Wash Bottle, Barikos

Barikos KS

Barikos KS and Mini Barikos KS are maintenance-free models of eye wash bottles. Containing water, they can be kept ready for use for at least two years in the sealed state. Both models are ideal for including within first aid boxes and sets. All above mentioned Barikos eyewash bottles comply with EN 15154-4. A protective cover clips onto the spray head of the eye wash bottle thus preventing any leakage. The tamper-evident seal guarantees proper function.

Barikos K

Barikos and Barikos K are designed to be filled with clear water. If the user is likely to be operating an eyewash bottle when standing, we recommend the Barikos. The user need only incline his head slightly downwards, ensuring good contact with the spray head of the bottle. The Barikos K eyewash bottle (vol.620 ml) can be used immediately, even when the injured person is lying down. As soon as the bottle is tilted downwards, a patented sliding valve opens and the washing fluid reaches the spray head unhindered. The Mini Barikos eyewash bottle (vol.175ml) is designed for persons who are frequently present in different working areas.

All bottles with sliding valve are suitable for use with upright and with the downward spray head.

4 Mini Eyewash Station EyesFresh

Ideal for the lab, filling stations or all work places where aggressive substances are used. "Eyes Fresh" can be attached to any standard cold water tap. For normal use of the tap, just press the button and the function changes back from the eye wash (returns automatically to eyewash-function when the tap is closed). Can be fitted onto taps with M22x1, 1/2" or 3/8" outer thread.

Bürkle

Description	PK	Cat. No.
Mini eyewash station EyesFresh	1	6.076 887

Hand-Held Drench Hoses

Two sprays in one. The hose can be used as a fixed eyewash when fitted into the mount. This allows the injured person to use both hands to hold open the eyes. The hose can also be removed from the mount so that other body parts and reclining patients can be treated.

B-SAFETY

- For wall and table mounting
- Wall-/ table mount included
- according to DIN 1988 und DIN EN 1717
- according to DIN EN 15154-2:2006 and ANSI Z358.1-2004
- DIN-DVGW tested and certificated
- DIN certification label included
- The spray heads ensure a wide distribution of water so that areas around the eyes are also covered and the exact positioning of the eyes is therefore not critical
- Large holes in the spray heads protect against limescale. The spray heads can be removed for cleaning purposes
- Rubber shrouds on the nozzles help prevent accidental injury
- Self-closing valve with squeeze lever operation
- Lightweight dust caps fall off automatically on operation
- Integral jet regulator keeps the water jet constant independent of the water pressure
- Built-in non-return valve prevents any backflow of contaminated water

Spray height: 250 mm
 Hose length: 1500 mm
 Connection: 1/2" swivel nut
 Water output: 7 litres/min per spray head, regulated
 Inlet fitting: M 28 x 80 mm

2. Occupational safety, Security First-aid/Dressings/plasters

1 Extraset Plasters Refill

The most commonly occurring injuries are to the fingers and hands. The proportion of plasters in the average industrial first aid box is only limited. The Extraset plasters refill was created for precisely this reason and contains 116 plasters in high-grade, non-allergenic material in several formats and sizes.

Type	PK	Cat. No.
Extraset plasters refill	1	9.264 165

Plaster Dispenser aluderm®-aluplast

- Manufactured from highly tensile ABS
- Size 160 x 122 x 57 mm
- With wall mounting
- Filled with five varieties of aluminium vaporised aluderm®-aluplast plasters. Sizes: 30 Strips 72 x 25 mm, 30 Strips 72 x 19 mm, 25 fingertip plasters, 20 finger dressings 120 x 20 mm and 10 finger joint plasters.

Plaster Dispenser QuickFix

Pull and you immediately have a plaster ready for use. Each plaster is individually packed. This provides great hygienic safety. Ready for use at critical workplaces. The plasters are made of protective, PE material that allows the skin to breathe and are especially suitable for damp workplaces. The QuickFix dispenser is only 23 cm wide and 13.5 cm high. It contains 90 plasters in spite of its modest size so it can be installed precisely in those places where the need is greatest. Refilling of the dispenser is also possible with other types of the QuickFix range.

B-SAFETY

QuickFix Elastic Long Refill, 30-parts finger dressing
Elastic plasters, conforming to the movements of the skin and therefore very comfortable to wear. The plasters allow the skin to breathe.

- Solves most accidents quickly, easily and hygienically
